Receipt of payment of a monetary equivalent for a tax in nature.

Date: December 21, year AD 78 or 91.

**“Daleas son of Abraimos, as an equivalent for the price of the dates from sacred land, 6 drachmas 4 obols. Year 11, Choiak 25.”**

Commentary: The divergence in the dating of this document results from the fact that the eleventh year may equally well refer to the emperors Vespasian or Domitian. Abraimos is well evidenced as a variant of the name Abraham.
